The application has been amended as follows:

Authorization for this examiner's amendment was given in a telephone interview with Kenyon Schuett on 06/09/05.

In The Claims:

At claim 5, "Protoplasts" has been replaced with ---A protoplast---.

At claim 6, ---produced--- has been inserted after "are" in line 2.

At claim 23, "stearyl-ACP desaturase" has been deleted; and ---or encoding antisense of stearyl-ACP desaturase-- has been inserted before the period.

At claim 24, ---with modified fatty acid metabolism or modified carbohydrate metabolism---- has been inserted before "produced".

At claim 27, part (e), "one" in line 1 has been changed to ---three---; and "second" has been replaced with ---fourth---.

At claim 28, ---corn-- has been inserted after "A".

At claims 29-31, ---corn-- has been inserted after "The".

Art Unit: 1638

At claim 32, part (e), "one" in line 1 has been changed to ---three---; and "second" has been changed to ---fourth---.

At claim 33, ---corn--- has been inserted after "A".

Remarks

The prior art does not teach or fairly suggest inbred KW4U110 having all the characteristics as described in Table 1 ; nor does the prior art teaches a seed plant of said inbred and a method that employs said seed and plant from the inbred corn KW4U110. The closest prior art corn line is the PHOOM maize line of White et al (US 5,792, 912). However, the instantly claimed KW4U110 corn line differs from the prior art plant at least in that it has plant height of 193 cm and ear height of 81 cm, dark anthocyanin, less husk tightness, shorter husk extension, leaf pubescence of 5, and a dark cob.

REQUIREMENT OF ALLOWANCE UNDER 37 CFR 1.801-1.809

The Deposit Statement on page 7 of the amendment filed 05/25/05 is deemed in accordance with 37 CFR 1.801-1.809. Since the application is otherwise in condition for allowance except for the needed deposit of seed, and since the Office has received written assurance that an acceptable deposit will be made on or before payment of the issue fee, the Office is authorized to mail Applicant a Notice of Allowance and Issue Fee Due together with a requirement that the needed deposit be made within THREE (3) MONTHS of the mail date of this letter (see 37 CFR 1.809(c)).

As set forth in 37 CFR 1.809(c), Applicant is required to deposit 2500 seeds of

Art Unit: 1638

the claimed plant within THREE (3) MONTHS of the mail date of this letter; thus the time for making the deposit is on or before the payment of the issue fee. Although the time period for paying the issue fee cannot be extended, the time period for satisfying the deposit requirement may be extended under the provisions of 37 CFR 1.136.

Failure to make the needed deposit of 2500 seeds will result in abandonment of the application for failure to prosecute.

Applicant is reminded that once the deposit of seed has been made, information regarding the date of deposit, description of the deposited material including number of seeds deposited, name and address of the depository, and the accession number must be added to the specification in order to comply with 37 CFR 1.809(d). In addition, the claims must be amended to replace the blank " _ " with the appropriate Accession Number. Amendments to the specification and the claims must be filed under 37 CFR 1.312. If these amendments are received after payment of the issue fee, these amendments must be accompanied by a petition and fee, and a showing of good and sufficient reasons why these amendments were not presented earlier.
